PROFESSIONAL SUMMARY

UI/UX Designer with 2+ years of experience designing web apps, mobile apps and dashboards. Skilled in user research, usability testing and Figma design systems, taking projects from client brief to research-backed wireframes, prototypes and clean developer handoff.

SKILLS

- **UX Research:** Qualitative Research, Quantitative Research, User Interviews, User Surveys, Research Synthesis, Contextual Inquiry, Competitive Analysis, UX Audit, Heuristic Evaluation, Affinity Mapping, Personas, Customer Journey Mapping, Usability Testing, Business Research
- **UX Design:** UX Principles, Information Architecture, User Flows, Task Flows, Wireframing, Low- and High-Fidelity Prototyping, Iteration from Feedback
- **UI Design:** Responsive Design, Web App Design, Mobile App Design (iOS and Android), Dashboard Design, Visual Hierarchy, Accessibility (WCAG contrast), Micro-interactions
- **Figma & FigJam:** Auto Layout, Components, Variants, Styles and Variables, Interactive Prototyping
- **Design Systems:** Component Libraries, Design Tokens, Typography and Color Systems, Spacing Grids, Design Documentation
- **Collaboration:** Developer Handoff, Client Communication, Design Reviews, Remote Work, Meeting Deadlines

PROFESSIONAL EXPERIENCE

UI/UX Designer | Softvence Agency | Dhaka, Bangladesh | Jul 2025 – May 2026

- Owned client projects end to end, turning briefs into user flows, wireframes, interactive prototypes and polished web and mobile UI
- Ran UX reviews of client products to identify usability issues before redesign, and grounded design decisions in user needs and business goals
- Built and maintained reusable Figma components with Auto Layout and variants, keeping screens consistent across breakpoints and releases
- Delivered clean developer handoff (specs, interaction states, assets) and worked with developers through build to close design gaps
- Presented designs to clients, gathered feedback and iterated quickly to meet delivery deadlines

UI/UX Designer (Intern) | Qwik IT Services | Canada (Remote) | Apr 2025 – Jun 2025

- Audited and redesigned the Fitback fitness app to improve usability, navigation and visual consistency
- Designed an employee-tracking dashboard module for Fitback covering tasks, schedules and performance tracking
- Designed a Calorie Tracker health app with user-friendly logging flows and a clean, intuitive interface
- Took part in design review sessions and collaborated with the development team to bring designs to production

UX CASE STUDIES

Kiosk Self-Ordering: Order Smarter, Wait Less | Team Case Study | Case Study Club BD

- Surveyed 65 restaurant customers as a team and personally interviewed 5 to find where ordering loses time
- Ran a competitive analysis of existing ordering systems and synthesized findings into design opportunities
- Co-wrote the case study, presenting the research-to-design process behind a faster self-ordering flow

Outpatient Clinic Experience in Bangladesh | UX Case Study (In Progress, Oct 2026)

- Independent study: running a patient survey on clinic-visit pain points, aiming at a digital clinic system
- Planned methods: on-site observation, patient interviews, journey mapping, design system and usability testing, with research data driving product decisions

LEADERSHIP AND MENTORING

- **Head of Graphics Design Segment** | NITER Computer Club | May 2025 – Present (Senior Executive, Jan 2024 – Jan 2025)
- **UI/UX Instructor** | NITER Computer Club | Mar 2025 – May 2025: taught UX principles, user research basics and Figma workflows to student designers
- **Member** | Interact Club of Mainamati (Rotary International) | Feb 2025 – Present

EDUCATION, CERTIFICATIONS AND LANGUAGES

- **BSc in Computer Science and Engineering** | National Institute of Textile Engineering and Research (NITER) | 2022–2026
- **Case Study & Career Boost Workshop 7.0** | Case Study Club | Jul 2026
- **UI/UX Design Certification** | Ostad
- **Languages** | Bengali, English
